Bali

Hace años que tenemos un idilio con la isla indonesia de Bali. Su luz, sus impresionantes paisajes salvajes, sus playas vírgenes y su gente nos conquistaron desde el primer momento. Cuando los hermanos Revert, fundadores de Skyline Design®, pisaron esta espectacular región, supieron que era la localización perfecta para fotografiar su catálogo, y así ha seguido siendo los últimos años.

Esta vez hemos querido centrarnos en la espesa vegetación y la maravillosa paleta de verdes que nos ofrece la isla, seleccionando espacios y modernas villas donde nuestros muebles brillen con luz propia, se pueda apreciar su máximo potencial y transporten al espectador haciéndole soñar y desear con poder estar disfrutando bajo el sol de Bali en uno de nuestras cómodas y bonitas piezas.

For years we have had an idyll with the Indonesian island of Bali. Its light, its impressive wild landscapes, its virgin beaches and its people conquered us from the first moment. When the Revert brothers, founders of Skyline Design®, stepped on this spectacular region, they knew it was the perfect location to photograph their catalogue, and this has continued to be the last years.

This time we wanted to focus on the thick vegetation and the wonderful palette of greens that the island offers, selecting spaces and modern villas where our furniture shines with its own light, you can appreciate its maximum potential and transport the viewer making him dream and wish to be enjoying under the sun of Bali in one of our comfortable and beautiful pieces.

Somos una marca española dedicada al diseño, fabricación y distribución de mobiliario exterior de lujo alrededor del mundo. Nuestra firma es reconocida principalmente por nuestras espectaculares daybeds, que han sido seleccionadas para amueblar a muchos resorts y hoteles de las principales cadenas hoteleras del mundo como Palladium, Hyatt, Sheraton, Hilton o Marriot entre otras. Estas piezas aportan un sofisticado diseño a los espacios que amuebla y una agradable sensación de lujo y confort a quien las disfruta, ambos puntos clave de su éxito.

We are a spanish luxury outdoor furniture brand which designs, manufactures and distributes around the world. Our brand is mainly recognized for our spectacular daybeds, which has been chosen to furnish many hotels and resorts of the main hotel chains of the globe such as Palladium, Hyatt, Sheraton, Hilton or Marriot among others. These pieces contribute a sophisticated design to the spaces that furnish and a pleasant sensation of luxury and comfort to those who enjoy them, both key points of our success.

Ponemos especial cuidado en la fabricación de nuestros productos, seleccionando materiales de alta calidad, como fibras sintéticas, aluminio o tapicería impermeable, todos ellos seguros para el medio ambiente y 100% reciclables. Los acabados artesanales del proceso de fabricación, como los trenzados, dan un toque especial de personalidad a nuestras piezas.

We take a special careful development of our products using high quality materials such as synthetic fibers, aluminium or waterproof upholstery, that are safe for the environment and 100% recyclable. The handmade finishes of the manufacturing process like the artisan weaving, gives a special touch of personality to our pieces.

Con una sólida red de distribución alrededor del mundo, conseguimos estar presentes en los cinco continentes, siendo Indonesia nuestro punto de fabricación exclusivo. A esto hay que sumar el nuevo e impresionante showroom que inauguraremos próximamente en la ciudad de Surabaya (Indonesia) y que sin duda supondrá un nuevo triunfo para el reconocimiento de nuestra marca.

With a solid distribution network around the world, we have managed to be present in the five continents, being Indonesia our exclusive manufacturing point. COLLECTION

ONA

Ona refleja la calma, una ruptura con la naturaleza de la monotonía. Es una línea de producto de concepto sencillo, pero muy completa, con gran cantidad de detalles que aportan un carácter mediterráneo a la colección. El juego entre la madera, los almohadones y el trenzado del respaldo son elementos que se entrelazan entre sí como se mezcla el agua, la espuma y la arena de la playa.

Ona reflects the calm, monotony broken by nature. It is a simple concept product line, but very comprehensive, with a lot of details that provide a Mediterranean character to the collection. The interplay of the wood, the cushions and the braid of the backrest are elements that intertwine with each other as the water, foam and sand are mixed on the beach.

Una vez más, conseguimos una colección versátil con una estética que consigue adaptarse perfectamente a cualquier espacio, ya sea relajado o exclusivo.

This sophisticated collection has been designed to stand out from the crowd. Its characteristic knotted rope weaving gives it lightness, while the sinuous Aluminium structures give the strength needed in the modern world. The Carbon lacquer and Anthracite rope emphasise the modern and timeless look. Once again, we get a versatile collection with an aesthetic that manages to adapt perfectly to any space, whether relaxed or formal.

COLLECTION

WINDSOR

Una colección marcada por la unión de lo tradicional y lo moderno. Los gruesos cojines se convierten en lo más destacado de los sofás, aportando un extra de comodidad a la pieza cuyo toque artesanal se aprecia en el trenzado de los respaldos tejidos a mano.

El aluminio blanco lacado y la madera de Teka maciza se unen en mesas y estructuras para conseguir el perfecto equilibrio aportando calidez y fuerza a las piezas.

A collection characterized by the union of tradition and modernity. The thick cushions become the highlight of the sofas, providing extra comfort to the pieces whose artisan touch is appreciated in the weave of the hand-woven backrests.

The white lacquered Aluminium and the solid Teak wood table tops and structures to achieve the perfect balance, providing warmth and strength to the pieces.

COLLECTION

MARTIN

Nuestra opción más casual debido, en parte, a su enorme adaptabilidad. Su delicado trenzado combina fibras de distinto grosor que no llegan a juntarse entre sí, siendo el acabado Seashell nuestro favorito por su gran versatilidad. Con un arquitectónico diseño de líneas rectas y curvas, se convierte en la opción perfecta para amueblar espacios tanto de estética relajada como tremendamente modernos.

Our most casual option due to its enormous adaptability. Its delicate weaving combines synthetic fibers of different thickness that do not get together, being the Seashell finish our favorite for its great versatility.

With an architectural design of straight lines and curves, it becomes the perfect choice to furnish spaces both relaxed aesthetics and tremendously modern.

TUSCANY

Divertida, arriesgada y moderna, es nuestra apuesta más transgresora. Sus ligeras estructuras están realizadas en aluminio lacado en color blanco puro texturizado, siendo los respaldos y reposabrazos los elementos más característicos de las piezas debido a sus orgánicos semicírculos forrados con cuerda de polietileno de color azul cielo.

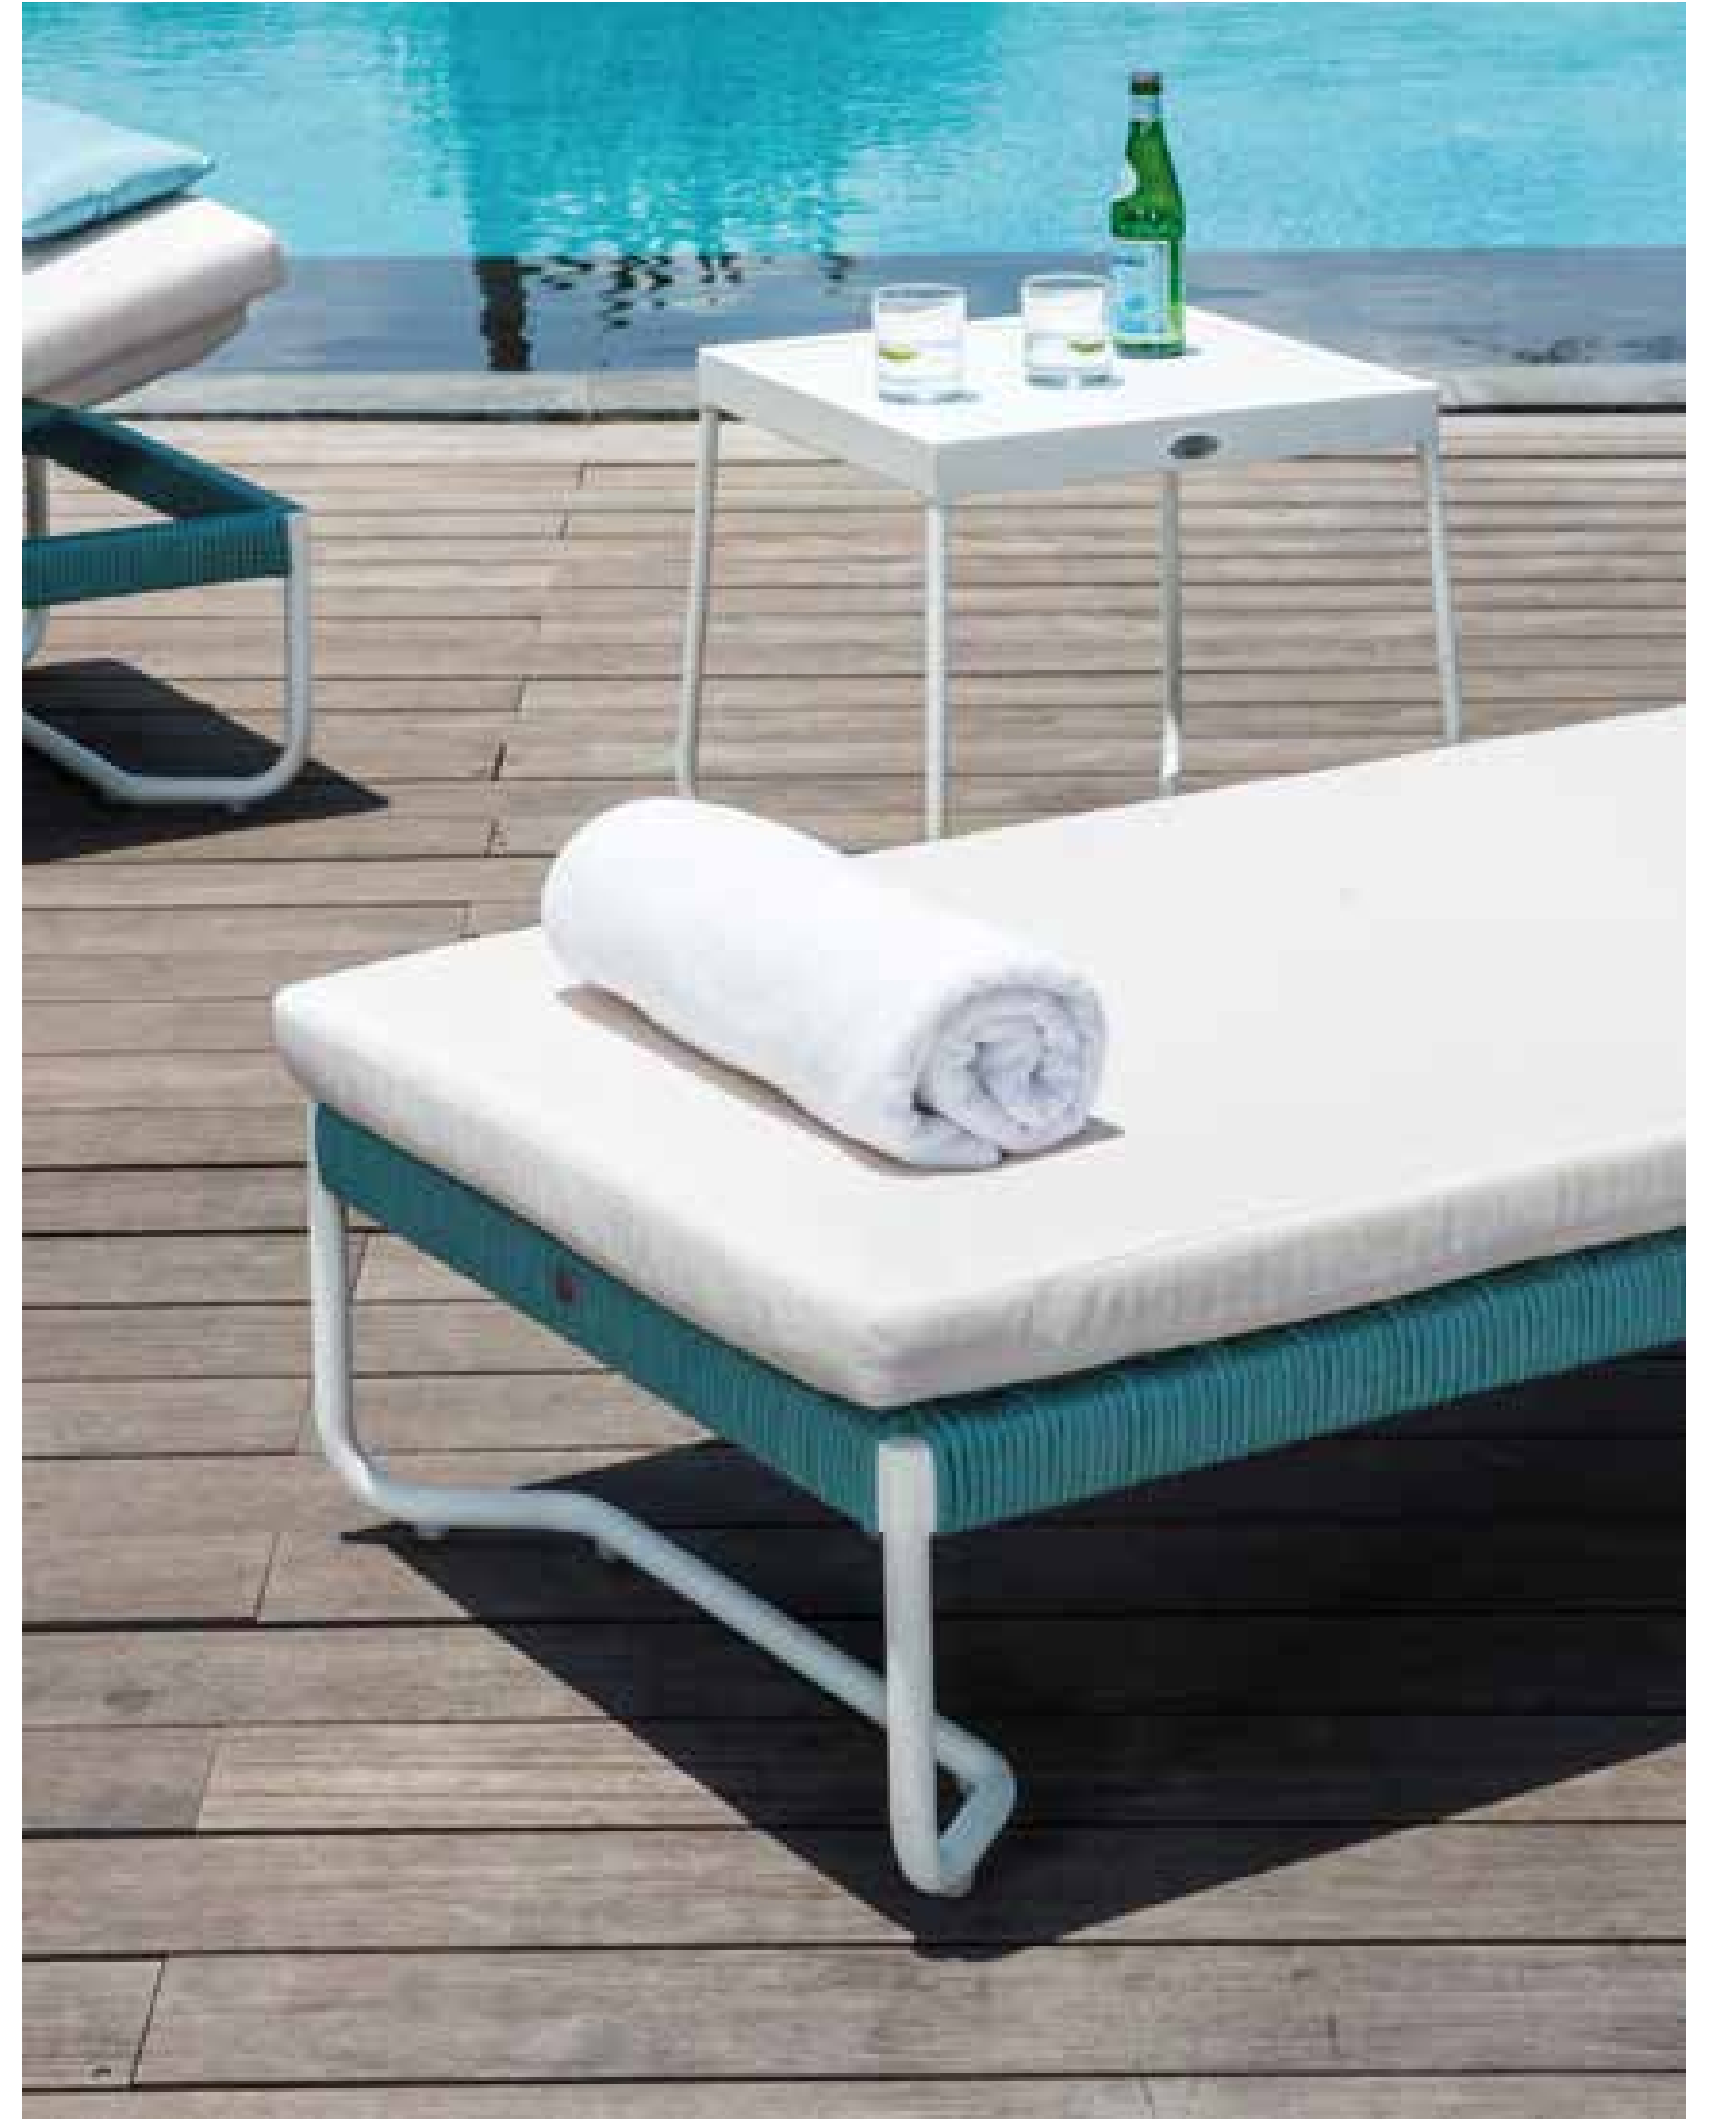

Fun, risky and trendy, it is our most transgressive bet. Its lightweight structures are made of lacquered aluminium in white fine textured, the backrests and armrests are the most characteristic elements of the pieces due to their organic semicircles lined with sky blue polyethylene rope.

PRODUCTS MAINTENANCE

MATERIALES Y MANTENIMIENTO

ALUMINIO

El aluminio es un metal perfecto para la fabricación de muebles de exterior debido a sus propiedades antioxidantes, su ligereza y su gran durabilidad, así como por su gran resistencia a golpes y arañazos. Utilizamos aluminio reforzado de entre 1,8mm y 3mm de grosor. Gracias a sus propiedades antioxidantes, se trata de un material ideal para su uso en zonas costeras. Para un correcto mantenimiento recomendamos limpiar regularmente con agua templada y jabón.

TEKA

La Teka es una madera con unas propiedades excelentes para la fabricación de mobiliario de uso exterior por su gran resistencia, impermeabilidad, y su gran dureza. El secreto de su gran resistencia a la intemperie se basa en sus ceñidas vetas y aceites naturales. Su limitada absorción de humedad la protege de posibles deformaciones. Para su correcto mantenimiento limpiar con agua y jabón neutro. Igualmente, se recomienda la aplicación esporádica de aceites específicos para Teka que no contengan alcohol ni sustancias químicas.

FIBRA SINTÉTICA

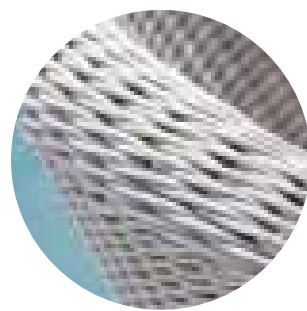

Fibras de polietileno de alta densidad diseñadas específicamente para la fabricación de mobiliario de exteriores. Además de su resistencia a los rayos ultravioleta a la intemperie y a temperaturas extremas, es un material resistente a los impactos y a la decoloración, duradero, fácil de limpiar y respetuoso con el medio ambiente.

POLYWOOD

Material similar a la madera formado a partir de distintos componentes plásticos. El Polywood es un material excepcionalmente resistente a la corrosión y a la intemperie. Los muebles fabricados en Polywood no necesitan de mantenimiento (cepillado, pintura, etc...), a lo sumo limpiar con agua y jabón.

TELAS

Tejidos diseñados para resistir todo tipo de condiciones climatológicas. Ideal para su uso tanto en interior como en exterior. Sus fibras se impregnan en tinte durante el proceso de fabricación, dando como resultado tejidos de gran durabilidad. El tratamiento aplicado a los tejidos Sunbrella les otorga capacidad para repeler el agua y la suciedad, haciéndolos extremadamente fáciles de limpiar. Para su correcto mantenimiento se recomienda lavar a máquina a temperatura no superior a 40°C. Aquellos tejidos que no puedan ser quitados para su lavado a máquina, se pueden lavar a mano con un cepillo suave, agua, jabón y dejar secar al aire libre.

MATERIALS & MAINTENANCE

ALUMINIUM

Aluminium is a near perfect metal for outdoor furniture as it cannot rust, is lightweight and is durable. The aluminium used by Skyline Design is powder coated and 1,8mm to 3mm thick, which ensures a surface resistant to knocks and scratches. Due to its inability to rust, our aluminium furniture is ideal for seaside use. Carefree maintenance we recommend washing it down regularly with warm soapy water.

TEAK

Teak has all the attributes needed for excellent outdoor furnishings. It resists decay, repels water, doesn't shrink or swell, ages well, and is incredibly strong. Teak's secret lies in its tight grain and natural oils. The limited absorption of moisture protects the wood from warping. In order to maintain the teak is recommended to clean the surface with water and neutral soap. It is also recommended the application of specific oils for Teak in order to renew its natural softness and moisture. Do not use products with alcohol or chemical substances.

FIBER

High-density polyethylene wicker developed to meet all standard specifications for outdoor furniture. This weaving material offers a carefree outdoor furniture, UV resistant, weatherproof and temperature resistant, strong and durable, colorfast, scratch-free easy to clean, environmentally friendly and 100% recyclable.

POLYWOOD

Made from different blends of thermoformed plastics, UV-inhibited pigment systems, foaming compounds, and selected process additives. Polywood has exceptional resistance to corrosive substances such as oil, salt spray and other environmental stresses. Products made with Polywood have excellent weathering resistance and requires no maintenance when used in outdoor applications.

FABRICS

Innovative fabrics designed to withstand all types of weather, ideal for both indoor and outdoor applications. Sunbrella fibers are steeped in top quality dyes during the manufacturing process making it ultra-durable. The finishing treatment applied to all Sunbrella fabrics repels liquids and dirt, making them extremely easy to keep clean. Sunbrella fabrics can be machine washed at 40°C. Fabrics covers that cannot be removed for washing can be cleaned with a soft-bristle brush and soapy water. Rinse with clear water and let air dry.

Las fundas de Skyline Design son impermeables y repelen el agua, el aceite y la suciedad, protegiendo el mueble de forma eficaz. No utilizar para cubrir los cojines de forma permanente, porque se podría formar humedad junto a las costuras de la funda y dejar manchas de moho en la tela. Antes de utilizar las fundas, el mueble y los cojines tienen que estar secos. Tenga en cuenta que las fundas están adaptadas especialmente a sus muebles y es necesario colocarlas correctamente. No guardar o doblar las fundas húmedas, dejar que se sequen en un lugar con buena ventilación. Para limpiar las fundas utilice un paño suave, agua caliente y un producto de limpieza suave si es necesario. Los disolventes no son aptos para la limpieza de las fundas porque pueden atacar, dañar o decolorar la superficie a tratar.

Skyline Design covers are backcoated to resist water, oil and dirt, functioning to protect the furniture. They are not recommended as a permanent cover for cushions, as moisture may collect and lead to the formation of mold stains. Furniture and cushions should be thoroughly dry before using the covers. Please note that the covers are especially tailored to your furniture item and precise placement is required (indicated by the yellow or brown piping). Never pack or fold covers that have become wet; instead, let them dry in a well-ventilated place. Use a soft cloth and warm water to clean the covers, using a gentle upholstery cleaner if necessary. Solvents are not suitable for cleaning the covers as these are aggressive to the surface and may cause damage and decoloration.
